

DEFINITIONS

1. Fire. Destructive and uncontrolled burning, including explosion, of combustible solids, liquids, or gases.
2. Injury. Physical damage to a person suffered as the result of an incident that requires (or should require) treatment by a practitioner of medicine, a registered emergency medical technician, or a paramedic within 1 year of the incident (regardless of whether treatment actually was received), or that results in at least 1 day of restricted activity immediately following the incident.
3. Reportable Fire. A fire discovered in progress, discovered following extinguishment, or detected later during an inspection that results in damage of \$1 or more or that causes loss of life or injury.
